

Project Initialization and Planning Phase

Date	04 July 2026	Team ID	
Project Name	Credit Card Approval Prediction	Team Lead	Zaamir Hanan

2.1 Define Problem Statements

Problem statements articulated from the customer's point of view, to keep the team focused on real applicant and analyst pain points throughout development.

I am	I'm trying to	But	Because	Which makes me feel
Prospective credit card applicant	Get a fair, timely approval decision	My application sits in a multi-day review queue	High volume leads to inconsistent manual screening	Frustrated and uncertain about my financial standing

Example — Problem Statement PS-1, visualized

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A prospective credit card applicant	Get a fair and timely approval decision	My application sits in a multi-day manual review queue	High application volume leads to inconsistent, error-prone manual screening	Frustrated and uncertain about my financial standing
PS-2	A bank credit analyst	Prioritize which applications need deeper manual review	I must manually cross-check income, credit history, and past-due records in every file	There is no automated first-pass risk assessment tool	Overwhelmed, and worried about missing high-risk cases

2.2 Team Roster

Zaamir Hanan — AP24110010862 — Team Lead
Deepak Bellam — AP24110011964 — Member
Mohana Krishna Reddy — Member
Rushikesh Kasthuri — Member
Shaik Asliman Thaslimaan — Member
