Customer Journey Map

Mapping the credit card applicant's experience stage-by-stage — actions, touchpoints, thoughts, and feelings — along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Application	Stage 2 Review & Verification	Stage 3 Decision & Onboarding
Actions <i>What does the customer do?</i>	- Researches card options on the bank's website - Fills out the digital application form - Uploads income and identity documents	- Waits for a status update - Responds to any follow-up requests - Checks the application portal periodically	- Receives the approval or rejection notification - Activates the new card - Sets up first payment and due-date reminders
Touchpoint <i>What part of the service do they interact with?</i>	- Bank website / mobile app - Online application form - Document upload portal	- Email / SMS notifications - Customer support helpline - Application status tracker	- Approval email / physical card mailer - Card activation via app or IVR - Welcome onboarding guide
Customer Thought <i>What is the customer thinking?</i>	"Which card fits my spending habits?" "Will my income qualify?" "Is this process secure?"	"Why is this taking so long?" "Did I submit the right documents?" "What if I get rejected?"	"Finally, a decision!" "How do I start using this card safely?" "What are the fees and limits?"
Customer Feeling <i>What is the customer feeling?</i>	Curious, but slightly overwhelmed by options	Anxious and impatient waiting for a response	Relieved and satisfied if approved; disappointed but informed if not
Process Ownership <i>Who is in the lead on this?</i>	Digital / Marketing team, self-service by applicant	Credit Risk & Verification team, supported by the ML approval model	Customer Onboarding team
Opportunities <i>How can we improve this stage?</i>	Offer a real-time ML eligibility pre-check before formal submission	Use the trained model to auto-flag high-risk applicants and speed up manual review	Send proactive card-usage tips based on the applicant's declared income profile
