Data Flow Diagram

This Data Flow Diagram (DFD) shows how applicant data moves through the credit card approval system — between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data (e.g., Applicant, Credit Bureau).
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data (e.g., Validate Application, Score Application).
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use (e.g., Application Datastore, Decision Log).
Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores, labeled with what data is being passed.

Example

The diagram on the next page illustrates how the symbols above come together to form the complete data flow of the Credit Card Approval Prediction system.
